HAS THE SUB-MARINE PROBLEM BEEN SOLVED?

Such is the Belief of W. L. Saunders, Chairman of Navy Consulting Board.

NEW YORK, May 7.—W. L. Saunders, chairman of the Naval Consulting Board, has announced that the Board had forwarded plans for dealing with the submarine problem, which it was believed, had solved the problem successfully.

Mr. Saunders, who has been chairman of the Naval Consulting Board about two months, supplemented his announcement by saying that while the submarine problem cannot be considered in reality to have been solved until the U-boats have been destroyed, nevertheless numerous experiments had been made along the Atlantic coast with highly encouraging results, which led the board to feel confident that a successful solution had been reached.

WASHINGTON, May 7.—The full strength of the first war army organized under selective draft will be 18,528 officers and 528,659 enlisted men, making up eighteen war strength divisions complete in every arm and supplemented by sixteen regiments of heavy field artillery, equipped with large caliber howitzers. A force of similar strength is to be taken from the regular army and National Guard. Kentucky and Indiana are expected to combine in raising one selective draft division.

WASHINGTON, May 7.—Haiti and China are on the verge of entering the world-wide alliance against Germany. President Artigue, of Haiti has called on Congress to declare war against Germany, and a commission has been appointed to consider the question. A dispatch from Peking, passed by the censor after deletions, says that China's entry into the war at an early date seems inevitable. The war party is said to be gaining the ascendancy over the protests of the President and Senate that China should not enter the war.

WASHINGTON, May 7.—At the request of the British government, explosive contact mines of America manufacture will be furnished by this government to Great Britain for sowing in German territorial waters. This government, it is said, makes a better mine than is made in the United Kingdom, and the British government, realizing this, has been anxious for some time to obtain some mines of American production.

Experts of the United States Navy have long believed that one effective way of dealing with the submarine was to sow contact mines in waters through which they would be obliged to pass in leaving or entering German ports. This view was given to the British government, and there is reason to believe that it was adopted.

COPENHAGEN, via London, May 7.—All is apparently not easy sailing for the German military authorities in their efforts to convince the people at home that everything is going well on the Western front.

The German military critics occasionally refer in their articles to letters of criticism from readers on this or that feature of the war reports, indicating not only an unwillingness to take the official bulletins and the dispatches of the war correspondents at their face value, but also that the number of "doubting Thomases" is large.

WASHINGTON, May 7.—War measures will occupy Congress this week. Interest centers on the War Army Bill, where a warm fight is expected on the draft age limit, and the Senate resolution permitting Col. Roosevelt to raise a volunteer force.

WASHINGTON, May 7.—The sacred union of the United States and the Entente Allies will not be dissolved until German imperialism has been destroyed and the peace of the world assured, Premier Viviani said in an address at Kansas City.

WASHINGTON, May 7.—After eliminating the newspaper censorship section as approved by the administration, from the espionage bill, the House by a vote of 195 to 183, inserted a new section, which makes it necessary to show that publication of prohibited information has been of value to the enemy, before penalties of law become effective.

COPENHAGEN, May 7.—As the latest means of keeping the German people aroused the German newspapers have uncovered a "secret Anglo-American treaty," whereby Germany in the future is to be allowed no colonies whatever, Germany's surplus population to be directed to the Anglo-Saxon controlled regions, where "they are to be

WOMEN'S GLEE CLUB.

An entertainment will be given at Old Union church, near the Bourbon line, to-morrow (Wednesday) evening, at 7:30 o'clock, by the Womens' Glee Club of Transylvania University, at Lexington. Admission, twenty-five cents. The proceeds will be used for the benefit of the church.

absorbed as the Germans have been in the United States."

WASHINGTON, May 7.—Foreign Secretary Balfour, in an address before the House of Representatives, warned against the hope for a premature end of the war. President Wilson heard the speech from the executive gallery.

LONDON, May 7.—The American consul at Liverpool reports that the steamer which picked up the missing boat from the torpedoed American steamer, Rockingham, is bound for America. The boat contained fourteen survivors.

WASHINGTON, May 7.—High praise for the conduct of America's foreign citizens is given by Attorney General Gregory in a statement revealing that since the United States entered the war only 125 alien enemies have been arrested under the President's proclamation.

WASHINGTON, May 7.—Henry Higgins, president of the Higgins Manufacturing Company, of Newport, Ky., offered the government the patent of a device to divert torpedoes from ships. The contrivance can also be used as a sweeper for floating mines.

WASHINGTON, May 7.—An appeal to young men and women to take up telegraphy has been issued by the War Department, which announced that the Western Union Telegraph Company had agreed to undertake to recruit the Signal Corps and take the places of commercial operators called to the colors.

WASHINGTON, May 7.—The government has decided to lend Great Britain \$100,000,000 to meet her needs in this country during May. A second instalment of \$25,000,000 was transferred to the British embassy to-day, making, with the \$25,000,000 loaned her Saturday, a total of one-half of the May loan.

LEXINGTON, KY., May 7.—General Williams said to-day Colonel Roosevelt had offered him the command of a regiment in the Roosevelt division some time ago.

"I have not given Colonel Roosevelt any answer," said General Williams, "both because of the indefinite nature of the plans, and because of my own duties to the State national guard. It would not be proper for me to state at this time what action I may later take."

WASHINGTON, May 7.—Decisive steps for the hygienic and mental welfare of the nation's soldiers and sailors have been determined upon by the Council of National Defense as a strict war measure. The council, guided by the general medical board, has prescribed to strike at the presence of insidious diseases and at alcoholism in the military commands.

GO-TO-SUNDAY-SCHOOL DAY A GREAT SUCCESS

All Schools of the County Report Largely Increased Attendance on May 6th.

They came from the highways and the byways, both big and small, and filled the Sunday School rooms of the county Sunday, in pursuance of the much-agitated "Go-to-Sunday-School" campaign, until it was estimated that approximately 4,000 people, both large and small, attended the Sunday schools of Bourbon county last Sunday.

In Paris the attendance was as follows: Christian Sunday school, 620, of which 110 were in the Men's Bible Class; Baptist, 272, Methodist, 257, Presbyterian, 185; Episcopal, 42. These figures do not include the colored schools, where an unusually large attendance was noted, but the figures not being available, they have not been included in the general total.

At the Christian Sunday school, a motion was made by Mr. Arthur B. Hancock that all the members of the Men's Bible Class contribute one dollar each to the cause of the local Chapter of the Red Cross Society. Forty-five responded, and the remainder gave their pledges to contribute. The suggestion was made that the other Sunday schools of the city be asked to take similar action, which will be brought before them at their meetings next Sunday.

With one or two schools out, THE NEWS was enabled to get returns from the attendance at the Sunday schools of the county as follows: North Middletown, 382; Little Rock, 150; Clintonville, 60; Hutchison, 50; Spears Mill, 85; Millersburg, 1,041, (divided as follows), Methodist, 237, Christian, 197, Presbyterian, 155, Baptist, 72, Millersburg College, 44; Colored Methodist, 172, Christian, 121, Baptist, 37; Centerville, 50; Palmer School, 66; Shawhan, 97; Ruddles Mills, not reported.

REVIVAL MEETING AT THE BAPTIST CHURCH.

Rev. Dr. F. W. Eberhardt, of Danville, a former pastor of the Paris church, began a week of lecture-sermons at the Baptist Church last night, as a part of the revival meeting inaugurated last week by the pastor, Rev. Dr. O. R. Mangum.

Dr. Eberhardt is a preacher of great power, as those who have heard him in former years can testify. The services will begin each night at 7:30 o'clock, Rev. Dr. Eberhardt taking "The Sermon on the Mount," as the basis for all his sermons.

Last night the minister was greeted with a crowded house, the auditors listening to a remarkably powerful sermon on the subject of "The Christian's Mission on Earth." The subjects for the remainder of the week are as follows: Tuesday evening—"The Christian's Law of Life;" Wednesday evening—"The Christian's Motive in Life;" Thursday evening—"The Christian's Emphasis of Life;" Friday evening—"The Christian's Standard of Judgment;" Sunday morning—"The Christian's Standards of Conduct;" Sunday evening—"The Christian's Safeguards."

A cordial invitation is extended to all to attend each evening's meeting. The meeting is in a nature of institute work, and is not a regular evangelistic meeting.

PLANS PERFECTING FOR DRAFTING MEN FOR ARMY.

Plans for the registering of men called to the colors under the Selective Draft Bill are being considered by Gov. Stanley and his advisory board at Frankfort. The Governor will appoint a board in each county, which in turn will select three men in each voting precinct to conduct the registration. Louisville, Lexington, Covington and Newport will appoint their own.

This will occupy five days. Every man within the age limits fixed by the statute and call of the President must register. The exemptions will be made by the War Department afterward. These probably will include those with dependent families and those engaged in certain skilled and productive occupations. From those selected the number required will be called and examined.

It is estimated that considerably more than a quarter of a million Kentuckians will be registered during the five days. Badges of war census officers already have been shown here, indicating that provost duty will be thorough in rounding up any who may undertake to escape the notice of the officers.

MORE ENLISTMENTS IN UNCLE SAM'S SERVICE

Mr. Wheritt Howard, of Paris, who recently took a position with the Louisville & Nashville, at this point, has resigned. Mr. Howard went to Cincinnati last week, where he enlisted in the naval branch of the United States service. Mr. Howard has previously had four years' service, having been stationed on board one of Uncle Sam's big sea-fighters cruising in Atlantic and Southern waters.

The Marine Corps branch of the service has gained its first recruit from this section in the person of Mr. Bishop Batterton, son of Mr. and Mrs. B. A. Batterton, of the Shawhan vicinity, and a brother of County Attorney George Batterton, of Paris. Mr. Batterton was accepted at the U. S. Navy Recruiting Station in Cincinnati, last week, and was sent to duty at Atlanta, Ga.

Among those who have recently taken the examination at Lexington for enrollment in the Officers' Reserve Corps, and who have been approved, are Editor Stanley O. Wood, of the Mt. Sterling Gazette, and Messrs. Robert Young and William Collins, of North Middletown.

The young men are not responding very readily to the call to arms for the army branch of the service, but it is to be hoped they will not defer until they have been called under the conscription act.

Mr. Fennell Galloway, bookkeeper in the Peoples-Deposit Bank & Trust Co., passed a successful examination and was accepted for admission to the Officers' Reserve Corps.

Mr. Eugene Elder, of Paris, a student at State University and a member of the staff of the Kernel, the University publication, passed a successful examination for admission to the Officers' Reserve Corps. Mr. M. L. Crain, of Paris, insurance man, also passed successfully yesterday.

Mr. Sparks Wilson, a well-known young farmer of the North Middletown vicinity, was accepted on examination at Ft. Thomas, and has been assigned to one of the Kentucky regiments. Mr. L. H. Barnes, formerly a prominent athlete at Transylvania University, now a teacher in the North Middletown College, was rejected on account of defective vision.

EDITORIAL MUSINGS.

Freedom of Speech in the College.

Is there a growing opposition to freedom of speech in the colleges? The latest incident in that direction occurred when Dr. Kuno Meyer, of the University of Berlin, protested against the recent Harvard Advocate prize poem, "Gott mit uns," and expressed the hope that no more Germans would take exchange professorships at Harvard. This incident was watched last fall when an English graduate of Harvard threatened to deny the college a promised bequest, if it did not cease harboring Prof. Munsterburg, a leading German professor.

Incidents like these are not confined to episodes growing out of the war. There are many people who would like to see college teaching standardized, measured out into certain prescribed chunks. Many colleges could get the buildings and bonded endowments they want by agreeing to sell the kind of political or religious training that a certain market demands.

With growing refinement and education, there should be growing tolerance. Actually growing refinement often means growing sensitiveness and irritation at antagonistic opinions.

There are limits to the extravaganzas that can be permitted within a college campus. But if the brainy professor puts some immature notions into a boy's head, some other teacher with equal wit and more sanity will knock them out. The trouble with the standardized teaching is that it imparts no ideas, good or bad, to be knocked out, and the boy gets no mental enlargement.

So let pro-Germans, anti-Germans, Socialists, Aristocrats, Democrats, Republicans, Prohibitionists, personal liberty men, all have their innings. The boy must some day grapple with these and many more. Let him try his casuistry at a time when there are men of insight at hand to correct errors of extremists.

The Decline of Volunteer Work.

A woman prominent in philanthropies in another city was speaking the other day of the difficulty of getting volunteer workers. Years ago, there seemed to be a lot of young women who could be secured to visit the sick and read to them, teach in mission Sunday schools, etc. To-day she finds it almost impossible to get such workers.

Probably the type of women who used to do this work are now engaged in professional employment. Formerly these girls remained in their homes, helped about the housework and had much leisure time. They were available for all sorts of philanthropies. Now they need all their free time for rest and recreation.

Thus the world gets on a more commercialized basis. The unmarried girl who used to be visiting the sick is now pounding a typewriter.

But the family that has one or more girls having a regular income should be in easier financial circumstances. The girl having become self-supporting, the man of the family is relieved from one drain on his income. Some of this will be absorbed by the modern cost of living, but not all.

The man who is relieved from the support of his daughters should remember that years ago the women used to carry on without pay many charities and philanthropies. Now much of this work has to be paid for. The work of women has added new

wealth to the community, some of which should be returned to the philanthropies which women used to support so generously. Also a peculiar responsibility rests on people of both sexes who have ample support without taking any business of professional position. The number of volunteer workers is too few to-day, and charity is a field offering many satisfactions to men and women of wealth.

HISTORY OF PAPER INDUSTRY IS DISCUSSED AT U. OF K.

Lucien Buck, expert in paper manufacture, a Paris boy, son of Mrs. Evelyn Buck, of Paris, spoke to seniors of the College of Mechanical and Electrical Engineering Friday morning on the industry, discussing at length its history. Mr. Buck was formerly a student at the University of Kentucky. He was until recently, when called to be general manager of the Parana Paper Company of Brazil, mechanical engineer and purchasing agent for Eastman Kodak Company.

The paper industry, which is 3,000 years old, reached a stage of perfection only in recent years, he said, finally growing to enormous proportions. In 1915 the industry in the United States had reached a value of \$300,000,000. The United States consumed 6,000 tons daily in 1915.

Kentucky was prominent in the early history of paper manufacture said Mr. Buck. The first mill west of the Susquehanna River was at Georgetown, established in 1793 by Craig, Parke & Company.

Mr. Buck illustrated his address with lantern slides, showing various phases of paper manufacturing and much of its early history.

GAME WARDENS ON ALERT.

Game Warden Douglas Thomas, Sr., and a corps of assistants are making every effort to see that there are no violations of the game and fish laws in this county, and they are on the alert every day and night to bring about a proper respect for those laws.

Game hogs and violators of the law will be shown no mercy or consideration either as respects age, color, or station in life, and it is well that they should govern themselves accordingly. A wholesome respect for the law will be the means of conserving the fish and game supplies of the county for a time of need.

In order to make the work more effective Warden Thomas has appointed the following well-known sportsmen farmers as deputies: J. Harry Holt, Thos. H. Clay, Jr., Catesby Spears, Jas. D. McClintock, Beni Woodford, Jr., Charles Spears, Brutus J. Clay, Roger Burris and Ayelette Buckner.

IT'S SURPRISING

That So Many Paris People Fail To Recognize Kidney Weakness.

Are you a bad back victim? Suffer twinges; headaches, dizzy spells?

Go to bed tired—get up tired? It's surprising how few suspect the kidneys.

It's surprising how few know what to do.

Kidney trouble needs kidney treatment.

Doan's Kidney Pills are for the kidney's only.

Have convinced people of Paris their merits.

Here is a Paris case; Paris testimony.

Kidney sufferers hereabouts should read it.

Mr. Chas. McCord, So. Pleasant St., Paris, says: "I have used Doan's Kidney Pills on different occasions, getting them from Oberdorfer's Drug Store and I have found them a splendid medicine. Whenever my kidneys have been irregular in action or when my back has been lame, I have found that a box or so of Doan's Kidney Pills proves sufficient to cure me of the attack."

Price 50c. at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mrs. McCord had. Foster-Milbur Co., Prop., Buffalo, N. Y. (Adv.)

WIRELESS BY TRUCK.

One of the greatest difficulties in police work in the larger cities is the inability of the policeman or patrolman always to communicate with the central office. The ordinary police patrol usually carries but two officers, one of whom is driving, and there have been occasions when a call for assistance was necessary, but impossible. The nearest means of communication was too far away. Now the police department of New York City has solved this problem by installing a wireless apparatus on each patrol. The radio apparatus is mounted within the chassis of the truck, while two poles hold the aerial wires in place in the front and rear; and the transmitter is driven by the same gasoline power which runs the car. Thus the police truck is in constant communication with headquarters.

TONY HOLDS UNIQUE RECORD IN BASEBALL

By pitching a ten-inning no-hit game last week for the Cincinnati Reds, Fred Tony supplemented a previous record he had held in baseball. While with Winchester in the Bluegrass League, Toney pitched a seventeen-inning no-hit game. Last week he hurled another extra-inning hitless battle. He is probably the only hurler in the history of the game who can boast of two overtime hitless engagements. Besides he is the only pitcher who can claim of having pitched one of these games against an opponent who also pitched no-hit ball for nine innings.

HELLO PEOPLE HAVE HELLOGOOD TIME.

For several hours last Thursday night, our sister city of North Middletown held a gay company of young people, a part of the executive and working forces of the Paris Home Telephone & Telegraph Company, who met in a combined business and social session there.

The "Good Will Club," composed of the Bourbon county employees of the Company, met in the building of the company at North Middletown at 8:30 o'clock Thursday night. Mrs. Oia Peters, manager of the North Middletown exchange, had made special and very appropriate arrangements for the meeting for that purpose.

The meeting was called to order by District Manager J. J. Veatch, of Paris, when the following program was carried out, papers being read or orally delivered by the participants: "Preface Long Distance Operating Practices," Miss Catherine Woods; "Proper Co-operation of Operators Between Themselves and With Other Departments for Efficiency," Mr. W. H. Cannon; "How to Become an Efficient Toll Operator," Miss Minnie Carr; "Holding Toll Circuits," Miss Julia Edwards; "Clearing Circuits," Miss Hazel Kimball; "Receiving Calls and Orders," Miss Hattie Hughes; "Reporting Faulty Equipment and Conditions," Mrs. Bessie Gray; "Salesmanship," Miss Maude Day; "Some of My Experiences as Chief Operator," Mrs. E. C. Burgin; "Assuming My New Position as Chief Operator," Miss Mary Sanders; "The Necessity of Deep Study for Efficiency," Mr. W. M. Paine; "Necessity of System for Efficiency in Any Department," Mr. Minor Corman.

Resolutions were adopted commending the good work of Mrs. E. C. Burgin, who retired from the service as Chief Operator, to assume a position as bookkeeper for the C. P. Cook Grocery Co., and expressing the appreciation of the operators and other employees of her long and faithful service with the Home Company.

Miss Catherine Woods was elected assistant secretary of the Good Will Club. The next meeting will be held at Little Rock, an invitation extended by the local manager having been accepted. The guests at the next meeting will be transferred to Little Rock in automobiles and the company's trucks. At the conclusion of the business session refreshments were served, and the remainder of the evening was devoted to dancing and other forms of amusement.

Those present and enjoying the evening were: From Paris: Mr. J. J. Veatch, Mr. and Mrs. E. C. Burgin, Miss Catherine Woods, Mr. W. H. Cannon, Misses Minnie Carr, Julia Edwards, Hattie Hughes, Maude Day, Mary Sanders, Mrs. Bessie Gray, Messrs. Robert Case, George Insko, G. M. Napier, L. C. Taylor, William Bowling and Thos. K. Smith. From Carlisle: Mr. W. C. Corman, Misses Lillie Martin and Bertha Laughlin. From Millersburg: Mr. Gano Duncan and Miss Ethel Jones. From Little Rock: Mr. Albert Evans, Miss Annie Bolsom and Mr. Cletis Evans. From Shawhan: Miss Margaret McClure.

PER NEILSON PUPILS TO GIVE RECITAL.

Per Nielsen, certainly the most popular of the vocal teachers in Kentucky, who has a class of sixty-nine, fifteen of whom are from Paris, is giving his first pupils' recital at Lexington College of Music Auditorium, Lexington, Ky., on Tuesday evening, May 8, at 8:15 o'clock. From Paris, Mr. Nielsen has chosen two of our well known, and always most appreciated singers: Mrs. Frank Pithian, who will sing a group of Grieg songs, which will be sung here for the first time, and Mr. Clay Sutherland, who will sing "My Homeland," by Speakes, and "Ah, Love But A Day," by Protheroe. Miss Elizabeth Crutcher, an excellent player and accompanist will kindly accompany the two singers, from Paris.

THE OIL IN TOBACCO.

Although the Havana or Havana seed tobaccos are low in nicotine, they are high in oil. The settlement in a pipestem or the brown stain obtained from blowing tobacco smoke through the meshes of a handkerchief is not nicotine, as commonly supposed, but is in reality tobacco oil, nicotine only being obtained in extract by an elaborate process of distillation and double distillation. The oil in cigar tobacco prevents the smoke being inhaled, as it would cause a strangulation and painful irritation.

ECONOMY.

Fear to spend what we have, nobly and on fit objects, is a mean kind of thing, but fear to squander and to waste is wholesome and righteous. Economy is not miserliness, and there is a grandeur about moderation which is wanting in excess. Practice economy, but be sure it is of the right sort.

Couldn't Corner Him.

In the orchard of Jack's home was one apple tree which bore particularly fine apples and these were always saved for special occasions. One day, however, the temptation proved too great for the small boy, and when his father looked for him he found him in the prize apple tree, "Jack," he called, "what are you doing up there?" "O," replied Jack, with elaborate indifference, "I just climbed up here to cool off."

TEARING OUT BRIDGE INTERRUPTS TRAFFIC.

The work of tearing out the Blue Lick bridge over Licking River at Blue Lick Springs, has been under way several days. As a consequence there has been an interruption to traffic. The bridge men expect to have the work completed in about twelve weeks. Traffic between Paris and Maysville and Carlisle and Maysville will be forced to go by way of the Carlisle and Parks' Ferry turnpike. Autoists and others are asked to make a memorandum of this notice, and to pass the information to others.

VIOLATION OF LAW.

An ordinance passed by the City Council of Paris some years ago imposes a penalty for anyone tacking a cardboard or metal sign on any telephone, telegraph or fire alarm pole in the city. Yet it is being done. A flagrant violation of the ordinance was very noticeable Wednesday on a pole at the corner of Main and Fourth, where a big placard advertising a track meet had been tacked up.

WAR MOTORS.

One of the most important war measures to be put through in this country is the mobilization of motor vehicles and motor boats, the former to be used in transporting military equipment and hospital supplies and the latter to be used in coast defense. Lists of motor cars, together with the names of their owners and information concerning the drivers, are rapidly being compiled in every State. In Boston, a woman's motor corps has been organized, the chauffeurs wearing appropriate and becoming uniforms. No woman is eligible to membership in this corps unless she possesses a chauffeur's license and is able to make repairs even to the putting on of tires. The names of many women are also on the lists of motor boat owners which have been compiled by the States and sent in to the Navy Department. Great value is set upon the small fast motor boat as a means of coast defense, inasmuch as it was the chief instrument which checked the German submarine activities in the British Channel.

CANDIDATES WARNED OF NEW "CORRUPT PRACTICE ACT."

It is highly important for candidates for office in Kentucky to familiarize themselves with the provisions of the "Corrupt Practice Act," passed by the Legislature of 1916.

It is compulsory that each candidate file with the County Clerk or proper official an itemized statement of expenses incurred during his campaign, such as printing, stationery, stamps, stenographers, rent for public halls for speaking, and all other expenses incurred pertaining to his election. Such papers must be filed fifteen days before the primary, and also fifteen days before the regular election.

The penalty for failing to comply with this law, is a fine in any sum not to exceed \$5,000, or to be confined in the county jail not to exceed six months, or both.

The BOURBON NEWS has been appointed as agent in Bourbon county to handle and sell the Thomas Kentucky Election Forms, which are used for this purpose. With these forms it is no trouble to keep an accurate account of expenditures, etc. These forms are reserved and protected by law by the Cadiz Record, of Cadiz, Ky.

All candidates are required to make these statements, and the easiest and best way is to purchase one of these forms now. The price is \$1.50. Come in and see one, and give us your order. We have samples to show, but will have to send in orders to Cadiz for stock. We are going to send in an order next week. Let yours come with the rest.

LOOKING FOR TROUBLE.

There is no virtue in bearing crosses of our own making. Many a misguided man prays for strength to bear burdens that do not belong to him and for grace to endure trials that he has gone out of his way to make for himself. Life's blessings outweigh its burdens, its joys outnumber its griefs, and a healthful outlook is quite as necessary as a prayer for grace.

An Ancient House.

"The ancient Romans had a catapult that could hurl rocks more than a mile."

"Now I understand it."

"What?"

"My landlord told me the house was a stone's throw from the depot. He must have had it on his hands since the time of the Caesars."

After several years of experimenting Turkish cigarette tobacco of high quality is being raised in German East Africa.

SCORES ATTEST
TANLAC MERITS

Kentuckians Place Stamp of Approval on Tonic.

HAS ENVIABLE REPUTATION

When a medicine is vouched for by hundreds in a state like Kentucky there can be no doubt as to its merit. Kentuckians are not easily led to make public statements about anything. They are inclined to test a remedy thoroughly before placing their O. K. on it. Therefore Tanlac's originators are proud to point to the hundreds of testimonials given voluntarily by people of the Blue Grass State. Here are sample statements:

BLUELICK SPRINGS—Augustus Bryant, farmer: "I am thankful for my good wife got from Tanlac. For nearly seven years she was troubled with her stomach. All sorts of medicines failed to help her until she tried Tanlac. We keep it in the house all the time now and always recommend it."

BERRY—Mrs. Minnie Terry: "I am glad of an opportunity to tell others how much I appreciate Tanlac. Other members of my family have used it with equally good results. I feel we must keep it in the home all the time."

ANCHOR—Mrs. Mary Cecil: "Indigestion, no appetite and inability to sleep well at night had undermined my health. I would wake tired and was very nervous. Since taking Tanlac I eat heartily, sleep well and feel better than in years."

HEIDELBERG—Donald H. Prince: "Acute indigestion, dizziness and anemia caused me to become all run-down. I lost weight and had no energy. Tanlac has meant more weight, good appetite and sound sleep. It took five bottles, but the results were worth it."

FROM AMERICA TO FRANCE—A HAM.

WASHINGTON, May 7.—Madame Joffre, wife of the Marshal of France, is going to get a fine big sugar-cured Virginia ham, a gift from Mrs. Woodrow Wilson, when the Marshal returns to Paris. When the Marshal was calling at the White House, Mrs. Wilson learned that Madame Joffre was very fond of American ham, which is very scarce in France. Mrs. Wilson sent to Virginia and procured an extraordinarily fine ham and sent it to Marshal Joffre, asking him to take it back to Madame Joffre with her compliments. The ham, carefully packed, will go with the Marshal's personal effects when he leaves the United States.

BRITISH SPENDING MILLIONS IN AMERICA

WASHINGTON, May 7.—Another loan to Great Britain within the next week was forecast by officials here today. The first credit of \$200,000,000 is being spent at a rate of \$8,000,000 a day on purchases in the United States and it is desired to complete the second loan before the British commission leaves Washington and before the first is entirely used up. It probably will be larger than the first credit.

PROPER FOOD FOR WEAK STOMACHS

The proper food for one man may be all wrong for another. Every one should adopt a diet suitable to his age and occupation. Those who have weak stomachs need to be especially careful and should eat slowly and masticate their food thoroughly. It is also important that they keep their bowels regular. When they become constipated or when they feel dull and stupid after eating, they should take Chamberlain's Tablets to strengthen the stomach and move the bowels. They are easy to take and pleasant in effect. (may-adv)

TO FIGHT INCREASE IN WHEAT PRICES.

OTTAWA, May 7.—Announcement was made in Parliament by Sir Thomas White, Minister of Finance, that plans are under way for joint action by Canada and the United States to reduce the price of wheat.

Sir Thomas said the price of flour, wheat or any other necessity could not be regulated by the Canadian Government alone. To be successful the regulation of food prices must be the simultaneous action of the United States and Canada, he declared.

He stated that Sir George Foster, the Canadian Minister of Trade and Commerce, now in Washington, is discussing with the American authorities the fixing of maximum prices for wheat on the whole of the North American continent.

WHY, OH, WHY?

Paris urchins and many others of larger growth are wondering why Paris is missing all the circuses this season. The towns all around us on the Louisville & Nashville have had visitations from this popular forms of amusement enterprises, but so far not one has even pointed its nose in the direction of Paris. A good circus or two would tend to liven up things considerably, and would help to relieve the dull monotony of existence as she exists in Paris.

SCHOOL BOYS ON THE FARM

Desiring that Kentucky shall do her full share in raising abundant crops in view of the unusual demand for farm products by reason of the war, the State Board of Education has passed resolutions urging that teachers and trustees organize every school district into an efficient force to aid in every possible way the nation in its fight for righteousness and humanity. And that the pupils in the public schools above the age of twelve years whose standing is such that there will be no question of their promotion or graduation and who may regularly engage in agriculture, shall have these facts considered in lieu of the full completion of the term's work. This provision to apply only to the work of the term ending June, 1917.

Appius Claudius.

Appius Claudius, surnamed Caecus (the blind), was a Roman statesman who lived during the third century before the Christian era. He was a Roman censor, 312 to 308, and consul, 307 to 296. He commenced the Applan way and completed the Applan aqueduct. From his Roman jurisprudence, oratory, grammar and Latin prose date their beginning. He abolished the limitation of the full right of citizenship to landed proprietors. In his old age he is said to have become blind, whence his cognomen "Caecus." He was the author of works in both prose and verse, of which almost nothing is known.

BUREAU OF VITAL STATISTICS URGES REGISTRATION

A great many applications are being received by the Bureau of Vital Statistics at Bowling Green, Kentucky, for certified copies of birth certificates from men who are anticipating enlistment in the army and navy or are seeking Civil Service appointment. It is regrettable that these requests cannot be complied with owing to the fact that the law has only been in effect since 1911.

However, this should be a reminder to every doctor and every parent that each little babe should have its birth recorded and be prepared for such a time in the future as will demand its birth records. There has never been a period in our national existence that so strongly pointed out the necessity of birth registration as at present. Registration means that each child will be able to establish its identity before the world as a citizen of the United States, prove its age of inheritance, prove age when applying for Civil Service position, age of ability under the law, age for school, military duty, and protection under the Child Labor Law; also the name, age, occupation and nationality of its parents. Certainly a vital asset for every child.

The Vital Statistics law makes it compulsory on the part of physicians and midwives to report all births to the nearest registrar and this record be kept in fire-proof vaults by the State Bureau. There are some who are disregarding this law and they may well be classed as "Slackers" for they are not co-operating with the government in its efforts to guard every resource. The U. S. Census Bureau and the Bureau of Vital Statistics propose to investigate in every county the birth returns and if unable to get all records will urge the prosecution of any violations.

WE SECOND THE MOTION.

Editor James M. Allen, of the Cincinnati Democrat, voices his indignation in being asked to donate valuable advertising space to the Government free. THE NEWS is just as thoroughly patriotic and American as any others in America, and we heartily affirm our support of the position taken by Mr. Allen in the following:

"The great and good United States Government is asking the newspapers to give free of charge their best salable wares—advertising space—to secure recruits for the army and allowing the munition makers a profit of 500 per cent. on their best salable wares. Wherein the great and good Government shows how great and good it is. As soon as the munition makers and the outfitters and tent-makers and Standard Oil Co. and a few more of the big trusts give all they have to sell free to the Government, we'll be just as generous and donate what we have to sell—and not before."

THE NEWS acknowledges receipt of a double column plate contribution from headquarters of the First Regiment at Louisville, asking for free space on the front page, which it is not possible to grant, under existing circumstances. We will consider our home people first.

COBB'S DESCRIPTION

"A nice, large, juicy oyster without a shell, just waiting for some one with an oyster fork to come along." So does Irvin Cobb, Kentucky-born world rover, accurate observer and word painter, describe the United States. No more fitting description could be condensed into so few words. Ready for the oyster fork of any militant and aggressive nation which determines that it needs and resolves to take the oyster lying ready for its fork is this country to-day.

Peppered with spices, seasoned with propaganda of pacifists, redolent with the countless millions of gold wrung from the agony of the Allies who are fighting the fight of freedom, the United States is protected from the fork of Germany only by the natives of the Allies.

Should peace come without the participation of the United States in the war, further than to wring from the need of the Allies the millions that have been paid for food and munitions of war, what obligation would there be upon any nation in the world to array itself in protection of the United States? Should Germany or Japan or any other nation decide to use the fork and spear the oyster so as to satisfy its hunger with the juicy morsel this nation now presents, where would this nation find friend?

TEACHERS ELECTED.

At a meeting of the City Board of Education held last Thursday night, the following teachers were elected as members of the faculty of the Paris Public School for the school term of 1917-1918:

E. T. Proctor, M. C. White, C. C. Dawes, Mrs. Ernest Harris, Mrs. E. T. Proctor, Mrs. E. A. Stone, Mrs. Evelyn Buck, Mrs. Ada Fishback, Misses Leona Ward, Frances Butler, Jessie Crisp, Blanche Lileston, Mary Layton, Bessie Purnell, Julia Clarke, Macie Talbott, Daisy Detweiler, Sallie Whaley, Lizzie Lenihan, Claire Brannon, Mariam Curry, Anna Farrell and Jennie Howard.

Miss Louie Bruer, who tendered her resignation as Truant Officer, was succeeded by Mrs. Lizzie Walker, by appointment by the Board.

Prof. F. M. Wood was re-elected principal of the Colored Public Schools.

With Prof. T. A. Hendricks as Superintendent, and the above thoroughly efficient faculty, the Paris Public School will keep the high rank it has attained among Kentucky schools.

At the next regular meeting of the Board of Education the full corps of teachers for the Western High School (colored) of Paris will be elected. It is likely that there will be few, if any changes from the present excellent faculty.

**SAUFLEY MAKES CONFESSION
"GOOD FOR THE SOUL"**

Editor Shelton Sauflay, commenting on the political situation in his newly adopted home, Richmond, makes the following "open confession" that strike a responsive chord in the breasts of most newspaper men:

"I'm out of politics. I made a big mistake when I went to the Legislature. Never again for me. My newspapers are at the disposal of the politicians at so much per line, but I am through fighting battles on the side of any faction in the Democratic party. Personally I am for Senator Beckham, and likewise I am fond of Senator James, but my newspapers are going to be newspapers rather than political mediums for any candidate or set of candidates."

MAY RAISE HOME GUARDS.

It was reported on the streets yesterday that "a movement is on foot" in Paris to raise a company of home guards, to be made up of local men who at present know nothing of military tactics, but who should know something about drilling in case of the war being brought close to home.

The proposed company is to be made up, according to rumor, of all local men who want to know more about drilling, and will be drilled by local men who have seen service in the army.

**MISS CHINN ADDRESSES
MEETING AT COURT HOUSE.**

An audience composed of women and many of the sterner sex gathered at the court house in this city Saturday afternoon, to attend the patriotic meeting, which had been called at the suggestion of the Paris Federation of Women's Clubs, of which Mrs. Fanniebell Sutherland is the worthy president.

As president of the organization which had suggested the meeting, Mrs. Sutherland presided. She pointed out in explaining the objects of the meeting that it had been called for the express purpose of considering what would eventually prove as great a question of concern to the country as the prospect of war itself—the practice of economy in the households of the city and the county, and the conservation of foodstuffs, not absolute stinginess, but economy wisely and judiciously administered and fostered. She appealed to the patriotism of those present and asked them by individual example to help along the movement, in which the women of the country were so greatly interested and in which they proposed to do their share.

She told of the work that is being done throughout the county by the girls of the Canning Club, and closed her remarks by introducing to the audience the principal speaker of the afternoon, Miss Aubyn Chinn, of the Agricultural Extension Division of the University of Kentucky, at Lexington. Miss Chinn, who has had a large and varied experience as a trained worker, and who is an authority on economics, is a most convincing and eloquent manner, presented to her auditors an exposition of "Cheap Substitutes for Foods That Are Scarce," and "Grain and Vegetables as Substitutes for Meat and Bread." Miss Chinn is a pleasing and fascinating speaker, and held the undivided attention of the assembly from the beginning to the close of her truly common-sense talk. At the conclusion of her address a number of women came forward and signified their willingness to become members of a Home Demonstration Club that will hold monthly meetings for free of charge instruction by a representative from the Agricultural Extension Division.

NEW MANAGER.

Mr. Chas. Clarke, who was manager of the New Independent Tobacco Warehouse last season, having resigned, the Board of Directors at a recent meeting, selected Mr. Dan W. Peed, Sr., to assume the responsibility.

Mr. Clarke's large interests in his farm near North Middletown, requiring all of his time, necessitated his resignation. He retains his interest in the company, however, and will remain a member of the directorate.

Mr. Peed has had almost a lifetime experience in the tobacco business, and has been connected at various times with enterprises in the tobacco line. He has been a grower and buyer, and eminently successful as both. He will bring to the Independent House the ripe judgment and experience of a man to whom the tobacco business is as an open book, which he has learned from planting the seed to cashing the big checks for the product.

**A BLANKED NUISANCE—
OR WORSE.**

It's a pity that a noise-ridden community hasn't the privilege of exploding a few bombs under these nerve-racking motorcycles that infest Paris every Sunday, and make the air hideous with their unearthly racket!

Sunday several of these sleep-disturbers visited Paris in full force, and more unnecessary racket was never heard here. The machines began to pass early in the morning, and the racket kept up all day.

At noon just as the congregations of the churches were leaving, a bunch of these pesky "road lice" passed through, blowing horns, mufflers and exhausts wide open and making all the noise these nuisances are capable of.

If some fellow would invent a land submarine that could be timed to hit these machines amidship at the height of their noise careers and lift them into the airy space between this and the next county, he would be worthy of a gold medal and a pension for life!

**FARMERS' AND BUSINESS
MEN'S PATRIOTIC MEETING**

What started as a bit of pleasantries among a knot of business men and farmers on the street yesterday, may become crystallized into a movement fraught with great possibilities for good to the people of Bourbon county. A "kidding" match started among the members of the crowd who were giving Mr. Jonas Well, the stock buyer, a good time, when to their surprise Mr. Well made a fervid patriotic speech, in which he took them to task for not raising more foodstuffs on their farms. Mr. Well made an address lasting nearly an hour, during which time those who had come to scoff remained to praise.

As a result of the speech the farmers became imbued with a sense of duty and patriotism left undone. They held a meeting and appointed Mr. N. Ford Brent as a committee of one to confer with the county officials and business men of Paris. It is proposed to hold a rousing big patriotic mass meeting of farmers and business men in the court house in Paris next Saturday afternoon at three o'clock. The object of the meeting will be to bring the farmers of Bourbon county to a realization of the serious shortage in foodstuffs, to raise more, to provide the labor for so doing, and to put the loafing element to work where they may do some good.

The movement has been launched in all seriousness and earnestness and Mr. Brent as the committee of one, undoubtedly did the right thing, enlisting the aid of the press in giving publicity to the movement.

We may "have the men, the guns and the money," as some one has aptly stated, but it is a solemn truth that "an army fights on its stomachs," and an ill-fed soldier makes a poor soldier. The farmers of the county, Mr. Brent said, had been suddenly brought to a realization of their unpreparedness by Mr. Well's speech and they now propose to get busy and raise more foodstuffs.

RESOLUTIONS OF RESPECT

Resolutions of respect passed by the Board of Directors of the Farmers & Traders Bank of Paris, at their regular monthly meeting, on the death of Louis Saloshin, a director of the institution.

Whereas, The Great Ruler of the Universe, has in his infinite wisdom, removed from our midst, our worthy and esteemed associate, Louis Saloshin, and,

Whereas, The intimate relation held during our business life by him with the members of the Board, makes it fitting that we record our appreciation of him, therefore, be it

Resolved, That the wisdom and ability which he exercised in aid of our work by counsel and service will be held in grateful remembrance.

Resolved, That the sudden removal from our Board, in which he has held a leading position, leaves a vacancy and shadow that will be deeply realized by the Board and his friends, and will prove a great loss to the city and the public;

Resolved, That with deep sympathy with the afflicted family and friends of the deceased, we express our earnest hope that even so great a bereavement may be overruled for their highest good;

Resolved, That a copy of these resolutions be recorded on our minute book and a copy be published in a local paper, and a copy be sent to the family.

MASON'S JUBILEE SINGERS.

The C. W. B. M. Auxillary of the colored Christian church of this city has perfected arrangements for the appearance in Paris of the famous lyceum and Chautauqua attraction, Mason's Jubilee Singers, a company of colored artists who specialize in negro melodies and readings; in the music and folk-lore of their race; jubilee singing; camp-meeting shouting, etc.

They will appear at the Seventh street colored Christian church in Paris this (Tuesday) evening, at eight o'clock, and will present a program that will be far above the average of such attractions. The admission has been placed at twenty-five cents. The proceeds will be devoted to the benefit of the church.

**FIRST NATIONAL TO
RECEIVE "LIBERTY LOANS."**

Subscriptions for \$10,000 in Treasury certificates of indebtedness has been taken by the First National Bank of this city, which institution has been designated by the Treasury Department as agent here of the United States Government to receive subscriptions to the "Liberty Loan."

These bonds will run a period of twenty years from date of issue, and will be issued at par in denominations of from \$25 to \$10,000, in \$25, \$100, \$500, \$1,000 and \$10,000, as the subscriber may elect. They will bear interest at the rate of 3½ per cent. per annum, payable quarterly.

THE LEXINGTON RACES.

Friday, the sixth day of the races at the Lexington track, drew a big attendance from all over the State. Paris and Bourbon County lovers of the sport were there in large numbers. Some came home with expenses, while others whose lucky star was in the ascendant, fingered several more fives and tens than they took up with them. The form players generally had a bad day with the card. Postmaster, in the second race, was the longest-priced horse of the day, paying 30 to 1.

Alexander Joseph, a Greek, who conducts a shoe-shining parlor on Main street, in Lexington, won a three-horse combination for which his \$2 brought him back \$699.20. He was the only man that selected Eastern Princess, Opportunity and Intone. The two-horse combination of Bedtime Stories and Soshus paid \$244.15.

The winners of the seven events were: First race, Chieftain; second race, Postmaster; third race, Bedtime Stories; fourth race, (substituted) Soshus; fifth race, Eastern Princess; sixth race, Opportunity; seventh race, Intone.

Saturday, the sixth day of the Lexington meet, proved the downfall of many of the knowing ones who were sure they could play two dollars and reap a harvest. They had the harvest all right, but it was one of regrets.

There was a large crowd at the track, and the seven events were well run. The track was muddy and the weather cold and disagreeable. Track and weather conditions caused many withdrawals, interfering seriously with the running of several events.

Governor Stanley was one of the most interested spectators at the track. He spent most of the afternoon in the box of Senator Camden and the judges' stand. He was called upon to present the trophy which Senator Camden donated to the winner of the race and after delivering this to Jefferson Livingston, the owner of Colonel Vennie, added that in times of war, horses were needed as badly as men, and that the race track was the testing place of good mounts for army use and that Kentuckians mounted on Kentucky thoroughbreds would hold their own in any kind of contention.

The winners of the seven events on the card were: First race, Stephen R.; second race, Ebony; third race, Mars Cassidy; fourth race, Colonel Vennie; fifth race, Korbly; sixth race, Bob Hensley; seventh race, Penrod.

USE GAS THIS SUMMER.

Don't wait until the hot weather comes and then wish you had had the kitchen piped for gas when you were cleaning house—do it now, you will eventually come to it. Anyhow, gas is the cheapest fuel to use and it is so much cleaner and the convenience is worth all the expense. Call us over the phone and we will be right on the job.

**NEW MASONIC TEMPLE
DEDICATED AT CARLISLE.**

The new Masonic Temple of Daugherty Lodge, No. 65, F. & A. M., at Carlisle, was dedicated Friday with appropriate ceremonies. Past Grand Master Samuel J. Veach, of Carlisle, as representative of the Grand Master of the Grand Masonic Lodge of Kentucky, conducted the services. The lodge hall was thrown open to the public at one o'clock and 1,000 persons from Carlisle, Nicholas county and adjoining counties and prominent Masons from all sections were in attendance.

Judge Samuel Holmes, the Rev. F. M. Tinder, of Lancaster, and Past Grand Master David Jackson addressed the lodge. After addresses, refreshments were served in the large banquet hall. The cornerstone of this temple was laid May 4, 1914.

**MAY MEETING KENTUCKY
OSTEOPATHIC ASSOCIATION**

The May meeting of the Kentucky Osteopathic Association will be held in the Seelbach Hotel, in Louisville, on Friday, May 11. Dr. Martha Petree, of Paris, will attend the session. An elaborate program has been prepared. The president's address will be delivered by Dr. R. H. Miller, of Bardstown. Addresses will be delivered on subject of interest to osteopaths by Dr. Josephine Hoggins, of Frankfort; Dr. Geo. F. Whitehouse, of Chicago; Dr. O. C. Robertson, of Owensboro; Dr. Josephine Fiere, of Washington, D. C.; Dr. E. R. Proctor, of Chicago; Dr. Granville Waller, of Louisville, and Dr. W. Banks Meacham, of Asheville, N. C.

W. C. T. U. CONVENTION.

The annual convention of the Seventh District W. C. T. U. Division C. will be held at Little Rock, in this county, on Thursday and Friday, May 10 and 11. This division includes all the unions in Bourbon and Fayette counties. The convention will open with a public meeting Thursday evening, and will close Friday afternoon. The delegates to the convention will be entertained at the homes of the citizens of Little Rock, during their stay.

NEW MACHINE.

Mr. Ernest Darnaby, of near Clintonville, has purchased through the Kinkead-Wilson Motor Co., of Lexington, a handsome Maxwell touring car, which will be delivered this week.

The town knocker, we note, never thinks of changing his place of residence as a cure for the ills of which he complains.

**ANNIVERSARY DAY OF
EPWORTH LEAGUE.**

Paris Chapter No. 485, Epworth League, observed the anniversary day at the Methodist Church in Paris, Sunday, with an appropriate program rendered by fifteen members at 7:30 o'clock.

There was a large crowd in attendance, and the program was thoroughly enjoyed. The general theme was "The Epworth Tree," representing the fruits of the Epworth League. The day was celebrated with services centering in the symbolism of the fruitful tree. Each year for several years the Epworth Leagues have given about \$30,000 to missionary work. This year the Epworth League Anniversary Day registers twenty-eight years since the meeting in Cleveland, which resulted in the formation of the distinctive Young Peoples' Society, and marks the twenty-third year since the Epworth League was formed into a separate connectional department of the church. It is to-day the largest denominational society of young people in the world.

The program was opened with a voluntary by Miss Nannie Brent O'Neill, at the organ, followed by the invocation by the pastor, Rev. W. O. Sadler. After the responsive reading of the sixty-fifth psalm, the choir sang the hymn, "We Shall See the King Some Day." Mr. Y. H. Harrison read the old Testament lesson, followed by prayer. After singing of the hymn, "O Jesus, I Promised," by the congregation, and reading of the lesson from the New Testament, the remainder of the program as follows was carried out:

Address, "Fruits of the Epworth League," President Dennis V. Snapp; Duet, "Is There Room For Me?" Mrs. James Grinnell and Mrs. S. T. Chipley; Addresses, "Fruits of Spiritual Work," Miss Sarah Power; "Fruits of Social Service," Mrs. S. T. Chipley; "Co-operation," Miss Neva Calvert; "Fruits of Recreation and Culture," Mrs. James Grinnell, Jr.; "Fruits of Missionary Work," Miss Frances Hancock; "League Extension Work," Mr. Fennell Galloway. After the offertory and singing of the hymn, "Lead On, O King Eternal," by the congregation the meeting closed with the Epworth League Benediction.

**BEDFORD TO ENTER GOVERN-
MENT SERVICE AS CHEMIST**

Dr. M. Hume Bedford, of Paris, as-
sociate professor of chemistry in
State University, at Lexington, is in
receipt of a telegram from the Navy
Department, calling him to Pittsburg
to work as chemist in the office of
Inspector of Engineering Materials.

The telegram was sent in recently
by Prof. Bedford, asking that he be
given a chance to serve the Govern-
ment in the capacity of chemist. He
wired that he would report at Pitts-
burg on May 28 or sooner if neces-
sary. Prof. Bedford is a son of Mrs.
Maria Bedford, of Paris.

**IMPORTANT MEETING
OF RED CROSS CHAPTER**

An important meeting of the Paris
Chapter American Red Cross will be
held at the Y. M. C. A. Building this
(Thursday) afternoon, at three o'clock.
This will be a meeting for both men
and women, and it is urgently re-
quested that there be a large attend-
ance of the members.

Those who desire to take member-
ship in the Red Cross are respectfully
asked to attend this meeting, which
will be of an instructive and impor-
tant nature. Sacrifice a little of your
busy time in this worthy cause, and at-
tend this meeting. Time, three o'clock
this (Tuesday) afternoon; place, Y. M.
C. A. Building, Main street, between
Ninth and Tenth streets, opposite the
Baptist Church.

SOCIAL AND PERSONAL.**Comings and Goings of Our
People Here, There and
Elsewhere.**

—Mrs. Volney Ferguson, of near
Paris, was a guest of friends and re-
latives in Lexington, last week.

—Mrs. Katherine Davis Craig, has
returned from a visit to Mr. and Mrs.
Bailey D. Berry, in Lexington.

—Miss Ella Loomis, of Cynthiana,
was a guest from Saturday to Sunday
of Miss Willie McNamara, on Pleas-
ant street.

—Mrs. Nellie Dick, of Lexington, and
Mrs. Bagby, of Louisville, are guests of
their sister, Mrs. Ola Peters, at North
Middletown.

—Mrs. Harry Collins underwent a
successful operation for appendicitis
at the Massie Memorial Hospital in
this city, yesterday.

—Mrs. J. M. Boland, of Point Pleas-
ant, Mo., arrived yesterday for a visit
to Misses Rebecca and Tillie Jaynes,
at their home on High street.

—Misses Rachel Sabree, of Louis-
ville, and Polly Baldwin, of Winches-
ter, who have been guests of Mrs.
Laura Skillman, in North Middletown,
have returned to their homes.

—Mr. G. Lee Wainwright, of Winches-
ter, Democratic candidate for State
Senator from the Clark-Bourbon-Mont-
gomery district, was a caller at THE
NEWS office yesterday. Mr. Wain-
wright, when asked as to his prospects,
said he was perfectly satisfied as to
the present.

—Miss Louise Steele, of Paris, at-
tended the German given last week by
the young society people of Versailles.
The leaders were Miss Lena Farley
Bohon, who has been a frequent guest
of Miss Steele, in Paris, and Mr.
Larabie Pinkerton.

—Mr. and Mrs. D. G. Taylor had
the following guests at dinner at their
home near Paris last week: Mr. and
Mrs. Jos. Ecton and Mr. and Mrs.
Younger Osborne, of Winchester; Mr.
and Mrs. L. D. Redmon, Mr. and Mrs.
John A. Powers and Mr. Matt Bedford,
of Paris.

—Mrs. J. Miller Ward and son, Mr.
Clay Ward, were guests of Mr. J.
Quincey Ward, in Frankfort, last week.
They were en route to Lyndon for a
visit to Sam Clay Ward and J. Miller
Ward, Jr., who are attending the Ken-
tucky Military Institute, and for a few
days' visit to friends in Louisville.

—Mrs. Abram Renick, of Winches-
ter, who has been a patient at the Mas-
sie Memorial Hospital, in this city, for
some time, and who recently returned
to her home, has been taken to St.
Joseph's Hospital, in Louisville, where
she underwent an operation Friday
evening. The operation was a suc-
cessful one.

—Mrs. Thomas Henry Clay, Jr., Pres-
ident of the Paris Literary Club, Mrs.
John T. Collins, of the North Middle-
town Club, Mrs. Allie Dickson, vice-
president of the North Middletown
Club, and Mrs. Frank P. Lowry, of
Paris, were guests of Miss Carolyn
Berry, at the meeting of the Woman's
Club at Lexington, Saturday.

—Prof. William Young, principal of
the Commercial Department in the
Paris High School, has accepted a sim-
ilar position for next term in Okla-
homa, and will leave for his new field
about the middle of June. Prof.
Young's many friends regret that he
will not remain in Paris.

—Mrs. Elizabeth Andrews, of the
North Middletown College, was a guest
Saturday and Sunday of Miss Lottie
Darnell, at Hagerman Court, in Lex-
ington. Miss Andrews, who is an ac-
complished vocalist, sang a solo at
the Calvary Baptist Church, in Lexing-
ton, Sunday.

—Grosvenor Bowen, more fami-
larily known as "Gov." Bowen, who has
been making a tour of the South, en-
gaged in promoting amateur minstrel
performances, is, with Mrs. Bowen, vis-
iting relatives in Winchester. There
is no more likable fellow in the world
than "Gov." Bowen, whose many vis-
its to Paris have made him a large cir-
cle of friends. He has gained the re-
putation of being one of the best black-
face comedians on the American stage
(Other Personals on Page 3.)

REV. ELLIS TO DELIVER**ADDRESS TO GRADUATES**

Rev. W. E. Ellis, pastor of the Paris
Christian church, has accepted an in-
vitation from Prof. C. C. Fisher, pres-
ident of the Millersburg College, to de-
liver the annual address to the mem-
bers of the graduating class of that in-
stitution, on Tuesday, May 22.

The class is composed of the follow-
ing young women: Misses Lillian
Pagby, Gladys Bowen, Lula Graham,
Jennie Morrow Miller, Helen Purdy,
Ada Plummer, Lula Mynierson, Laura
Sandridge and Hattie Wood. The spe-
cial graduates are Misses Alice
Grimes, Jennie Morrow Miller and Vir-
ginia Shanklin, voice, and Miss Alea
Wilson, in expression.

COUNTY TEACHERS MEET.

Miss Mabel Robbins, County Super-
intendents of Schools, presided at the
meeting of the Bourbon County Teach-
ers' Association, held in her office, in
the court house, Saturday morning.
There was a good attendance despite
the very disagreeable weather, and the
program, a most interesting one, was
well carried out in every detail.

MAY COURT DAY.

May court day was not much of an
improvement over the preceding one
in April. The gloomy weather cast
its spell over everyone, and there was
very little trading done. The farmers
were mostly busy with their farm
work, and there was a small crowd in
the city. The impending war, the pros-
pect for crops and politics were the
principal themes of discussion. Can-
didates for the various city and county
offices were busy handshaking and
buttonholing the voters in the interest
of their respective races. Small lot
of stock on the market, some changing
hands at moderate prices. Very little
business came to the merchants.

**RED CROSS WOMEN
DOING THEIR PART.**

The local women have been "doing
their bit" this past week, through the
Bourbon County Red Cross Chapter.
There have been very enthusiastic
meetings at the Presbyterian manse
each day to do the necessary sewing
and the first box of hospital supplies
is ready to go. The box contains 11
dozen sheets, 8 dozen pillow slips, 3
dozen towels, 4 dozen bath towels, and
3 dozen wash cloths.

The ladies of Paris have been assist-
ed with this box by the ladies of the
Leesburg neighborhood, and it is to be
hoped that soon other sections of this
county will realize the importance of
this work and form auxiliaries so that
the ladies of the entire county may
have a part in Bourbon's share of this
great work.

Mrs. W. G. McClintock, who is at the
head of the Bourbon county chapter
will be delighted, if communicated
with, to assist in the forming of aux-
iliaries throughout this county.

LORD CURZON DOES NOT FEAR SUBMARINE MENACE.

LONDON, May 7.—Addressing the Primrose League in London recently, Earl Curzon, of Kedleston, member of the War Council, said there was no military front in the world-wide war where at the present moment the enemy was not a retreating factor.

"We are learning daily from the western front," said Earl Curzon, "of increasing desertions and surrenders by the enemy and of the breaking down in discipline on the German side."

The speaker said he recognized the submarine menace to be formidable, but that in its calculations the Cabinet had made allowance for wastage in shipping greater than that which had already taken place. He did not think personally that the submarines would diminish shipping to such an extent as to affect the ultimate issue of the war.

"I am convinced the Germans are wrong in their estimate of the results of their submarine warfare," Earl Curzon continued. "They will not succeed in starving England or her allies into surrender, even should the submarine war last as long as next year. They may drive us to compulsory rationing. I think we ought to adopt rationing, but there is not the slightest cause for panic or alarm."

Referring to the entry into the war of the United States, Earl Curzon declared that the Americans already were putting their full weight into the war, and realized the gravity of the situation they, in common with the allies, now were facing. The Government has already heard from Foreign Secretary Balfour, who is in the United States, and in respect to naval resources, shipbuilding and supplying war material of every kind, and still more in finance, America was lending immediate and valuable help.

"It may not be very long before their armed forces are seen upon the continent," said Earl Curzon. "We shall find, therefore, that we have secured in America a whole-hearted, sincere and powerful ally, who entered the war for a victory of mankind, and who will not desist until they have secured, not an inconclusive or illusory peace, but a real and lasting peace, which, when established, shall be fortified and strengthened by guarantees which will, if possible, secure its continuance in the future."

Baron Devonport, the Food Controller, announces that an organization for complete rationing of the United Kingdom, cannot be completed until the middle of July. The necessity for putting the machinery into motion will not arise if the people loyally observe the King's exhortation to reduce the consumption of bread by one fourth. In the next eight weeks, the announcement says, the public can decide for itself whether compulsory rationing will be instituted.

WILLIAMS WAS TERROR TO NEW YORK EVILDOERS

Broke Up Gangs and Earned Title "Czar of Tenderloin."

New York.—For nearly thirty years one of the most striking and picturesque figures in the metropolitan police department was former Inspector Alexander S. Williams, who died recently.

Williams was a policeman of the old school. Sometimes they called him "the clubber," and at others "the czar of the Tenderloin." He earned both titles, the former breaking heads of thugs on the lower east side and the gas house district, and the latter by his conduct during the eleven years he was in command of the West Thirtieth street precinct.

In 1866 Williams tired of ship carpentry, the trade he had learned, and became a policeman. His first post was on Houston street, where the toughest men in the city congregated. Their specialty was "beating cops," but they did not beat Williams. Picking out the toughest of the gang, Williams thrashed him thoroughly. Thereafter the new policeman was not troubled.

In 1872 he was made captain and sent to the East Thirty-fifth street station. Gangs ruled the neighborhood, but the new captain clubbed them into submission.

It was in 1876 that Williams was sent to the West Thirtieth street station, controlling the district given over to gambling and all night revels. He retired on a pension after the Lexow investigation.

U BOAT BEATEN OFF IN BATTLE WITH STEAMER

Survivors of Coronada Reach Halifax, N. S., and Relate Thrilling Story of Fight.

Halifax, N. S.—Twenty-one survivors of the British steamer Coronada, which was torpedoed 150 miles off the Irish coast, arrived on a British steamer, which picked them up nine hours after the Coronada went down. Nine men were lost by the capsizing of their lifeboat.

The survivors reported they had scarcely reached the deck of the rescuing steamer than they witnessed a thrilling battle between another tramp steamer and a submarine, in which the submarine probably received its death-blow. One of the Coronada's men said:

"I was looking aft when I saw what looked to be a steamer coming up astern. She was making pretty good time considering the class that comes around as cargo boats. I took the glasses and saw that the steamer was in action with a submarine and was certainly holding her own. As I watched I saw a spurt of smoke issue from her stern gun and hit dangerously close to the periscope of the submarine. As the shot struck the submarine came to the surface, and a second later I saw the water shoot like a geyser alongside the Britisher.

"Before the submarine could get under water the tramp returned this fire. As I watched the submarine I saw a shot land right at her side. There was a gush of water, and when the sea had quieted down once more there were no signs of the German craft. Whether she was sunk by the last shot of the Britisher or whether she managed to escape I cannot say, but this I know—that the battle ended in a manner which left little doubt as to who had the best of it."

GERMANS IMPROVE AIR FIRE.

They Greatly Increase Dangers of Enemy Reconnaissance.

London.—Airmen returning from France report that the Germans are using new methods of combating the British airmen. Hitherto it has been possible for the British aviators to patrol over the important German positions by making squadron flights, the Germans using scattering anti-aircraft fire.

Now the Germans concentrate their anti-aircraft guns on given areas, forcing the British aviators to go through a withering fire if they wish to reconnoiter the positions.

Fewer English Motor Licenses.

London.—The number of automobile licenses issued in Great Britain and Ireland is only about half what it was before the war. In 1914 there were 537,000 registered motor vehicles of all kinds. The total for the following year was only 300,000 and for 1916 about 325,000.

LETTER FROM THE CHILDREN'S HOME SOCIETY

To Our Friends:

In the present grave crisis of our country, we must face the unusual conditions caused by the war, and use every means to reduce the high cost of living, which is becoming a burden not only to the wage-earner, but also to the salaried man.

We do not know how long this war will last, but we do know that it will drain our country of her splendid young men. So many of them, from the farms as well as from the city, will respond to the call of their country, that there will be a scarcity of labor, especially on the farm, during the next few years, and we must be prepared to meet these conditions.

For their own protection, farmers should avail themselves of every opportunity to secure help on their farms, which, they admit, is already hard to get. For mercenary reasons, if for no other, farmers will want efficient hands to take care of their crops, but we know our farmers are just as patriotic as the men who go to the front.

We feel that we can help the farmers to solve their problem of securing help during the coming years, and they can help us by taking our boys and girls into their homes.

We have 219 wards here in the Receiving Home, whose ages range from a few months to 18 years, approximately:

10 girls, 2 years and under;
11 girls, 3 years to 6 years;
36 girls, 7 years to 13;
11 girls, 14 to 18 years;
21 boys, 2 years and under;
48 boys, 3 years to 6 years;
58 boys, 7 to 9 years;
17 boys, 10 to 12 years.

Many of our children are as bright and attractive as any one could wish. We have others who have some slight defect, but who are capable of being trained to do their share of work in the home or on the farm.

A large number of our children are too young now to render much service, but in a few years hence they will be of great value to those people who are generous enough and far-sighted enough to avail themselves of getting a child, who in a short time will become attached to its new home, and will be of great value to its foster parents.

A farm without a boy is not complete, and farmers' wives, too, need helpers. We always prefer to place our wards in small towns and country homes.

Every application will be attended to as quickly as possible. Address all letters to

GEO. L. SEHON,
Superintendent Kentucky Children's Home Society, 1086 Baxter Avenue, Louisville, Ky.

PURE CASE OF NERVE IN ASKING FOR BADGE.

Secretary Garrett D. Wilson said he never saw any race opening that had a more roseate aspect than the present meet of the Kentucky Association at the Lexington track, and Colonel Bob Baker, Chairman of the Executive Committee, declared that he is sure that if all the people who asked for season badges and didn't get them because principally the pasteborder factory couldn't supply any more, will be at the track any one day the crowd will be the largest in the history of the course. Allan Gallaher and J. C. Milam, who received their invitation as members of the Executive Committee, are saying "never again" on the badge distribution job.

Somehow or other the man who never would think of stepping into a fruit store and asking the proprietor to give him a bunch of bananas or a box of oranges, has no hesitancy whatever in demanding a season badge to the races and becomes indignant usually if it is refused him.

WINS OVER COMMONWEALTH.

The Louisville & Nashville Railroad Company won over the Commonwealth in its appeal from a verdict of \$300 fine in the Estill Circuit Court for failing to run a passenger train over the branch from Irvine to Winchester, January 5, 1916. The road began running passenger trains last May, and contended that it had not run passenger trains prior to that time because it was unsafe as the roadbed was new. It had been running freight trains. The law requires a passenger train daily each way; but the Court of Appeals, in an opinion by Judge Carroll, said it would be unreasonable to fine a railroad for not running trains when it was unsafe, if the failure was not the fault of the railroad, and it should be allowed to establish this defense.

Natural Thing.
"I don't believe the captain of our ship was an experienced mariner. When we had that accident in mid-ocean, he did not seem to know what to do." "But you must remember that it was only natural under the circumstances for him to be completely at sea."

CHILI GETS HOT TOWARD GERMANY

LONDON, May 7.—The Chilean Minister to Germany has demanded his passports, according to a Central News dispatch from Amsterdam.

The dispatch says:

"A message received from Berlin says the Chilean Minister to Germany has demanded his passports and announced a rupture of relations between Chile and Germany. The news caused the greatest annoyance in political circles, where efforts were being made to avoid a break with both Chile and Argentina in order to preserve some friendships in South America."

"Instructions have been given for Chilean citizens to be treated as enemy citizens. The dispatch adds that it is feared that it will be impossible in the present circumstances for the Chilean Legation to leave Germany."

A NEW TYPE OF FIRE ESCAPE.

Unique fire escapes in the form of playground equipment have recently been installed by the schools of California. They consist of long sheet-metal chutes, reinforced with angle iron, which are attached securely to the sides of the building, and afford an excellent emergency exit as well as a means of amusement for the school children. The entrance to the chute is from a wide iron platform on the second floor, from which it extends in a slanting angle to the ground, ending in an upward curve that checks the violence of the descent. A pile of sand is also placed at the bottom of each chute to lessen the danger of a possible fall. The children are encouraged to use the chutes for play at recess so that they will become accustomed to them.

THE MATAPLO TREE.

In all the vegetable world there is probably nothing comparable to the hugging parasite, the matapalo tree of the South American jungle, according to Charles F. Lummis, who gives a vivid description of the "tree-killer" in an account of his archaeological explorations in Guatemala. A small seed is blown against the trunk of some huge tropical tree, where it clings tenaciously, feeding on the tree's sap. Soon tiny, long air-roots begin to grow down to the earth, anchoring their tendrils in it. Once planted, these tendrils grow in strength and extend long wiry arms around the trunk of the tree, slowly sapping its life and choking it to death.

GO AFTER THE LOAFERS!

Everywhere we see requests for the farmer to raise more foodstuff. That is it should be, but isn't it asking a good deal of the farmer to feed first himself and family, then an army of soldiers, an army of factory hands, an army of allies and an army of loafers? Go to any village store any day in the week and see how many of the latter you can count. Then multiply by the number of stores in the county, number of counties in the State, etc., and you will get an idea of the size of this army of loafers.

Knotty Problem Confronts United States Naval Department.

CONFIDENT OF SOLVING IT.

Do Not Expect It Will Be Easy Task, However—Latest German Submersible Said to Be Able to Take Considerable Punishment From Light Guns of Armed Merchant Craft.

Washington.—Navy department advisers indicate that Germany has laid down no new capital ship or destroyer during the war, confining new construction to submarines. Battleships, battle cruisers and destroyers, building when the war began have been finished, but aside from them Germany's naval constructing geniuses have devoted their efforts to turning out large numbers of submarines and to improving such craft.

While little positive information has been received, naval officers are satisfied with the information regarding

Photo by American Press Association.
REAR ADMIRAL BENSON.

submarines. Among other things, reports show that Germany probably has 200 1,000-ton submarines of the newer type capable of a wide radius of action and greater execution than any devised by other nations.

The very latest German submarines have considerably thicker skins than earlier types and are said to be able to take considerable punishment from light guns, especially in clashes with armed merchant craft.

The understanding is that the German navy has largely standardized submarine construction and can turn out the largest underwater craft in large numbers in a short time.

In view of the feverish activity of the German navy in turning out submarines, naval experts are not inclined to belittle the task which lies before the United States and the allies in ridding the high seas of the underwater menace. If Germany can turn out large, powerful submarines in great numbers and keep them coming steadily the task will prove anything but easy.

The fact that the tonnage destroyed since Feb. 1 has been far below the figure set by Berlin has encouraged the belief in the allied countries that Germany has already passed her maximum in utilizing the submarine to "starve" England and the nations fighting with that country.

But American naval officers are not inclined to take this view. Although they are confident the submarine problem will be solved, they will not be surprised if it takes a long time.

Naval preparations for all emergencies have settled down largely to routine. Instead of being in haste navy department officials and navy officers go about their tasks with cool determination. Some of the higher officers skip the barber shop occasionally and work long hours in their offices and in their homes after office hours. But there is no outward evidence of excitement in or about the navy department. The machinery is in smooth running order and appears to be working with precision.

PISTOL THREAT HOLDS MAID.

Society Leader Takes Drastic Step to Prevent Servant From Leaving.

EVANSTON, Ill.—The practice of old feudal Kentucky of shooting those who invade your home in search of something you own will be staged in staid old Evanston unless other women cease enticing away the maids of one society leader late from "down south."

Annie, maid extraordinary, is the bone of contention.

"I am leaving Saturday night," said Annie after a talk with one of her mistress' friends. "Mrs. Jones will pay me higher wages."

"Down where I come from," drawled the mistress, "they shoot people for taking things of a whole lot less value than servants. You can go with Mrs. Jones if you want to. But some day I am going to call on Mrs. Jones. Either she or you is going to answer the door. I am going to shoot the first one of you I see. That's all."

Annie is holding down the old job, and Mrs. Jones is not nearly so anxious to hire her as she believed she was.

LIFT YOUR CORNS OFF WITH FINGERS.

Tells How To Loosen A Tender Corn Or Callous So It Lifts Out Without Pain.

You reckless men and women who are pestered with corns and who have at least once a week invited an awful death from lockjaw or blood poison are now told by a Cincinnati authority to use a drug called FREEZONE, which the moment a few drops are applied to any corn or callous the soreness is relieved and soon the entire corn or callous, root and all, lifts off with the fingers.

FREEZONE dries the moment it is applied, and simply shrivels the corn or callous without inflaming or even irritating the surrounding tissue or skin. A small bottle of FREEZONE will cost very little at any of the drug stores, but will positively rid one's feet of every hard or soft corn or hardened callous. If your druggist hasn't any FREEZONE he can get it at any wholesale drug house for you.

SHOE FAMINE WILL NOT HIT THE ARMY

AKRON, O., May 7.—"The United States Army or Navy will not be affected by the shoe famine which now prevails in European countries, due to the fact that the requirements of the allied armies are so great," said an official of one of the large rubber companies of Akron recently.

This statement was brought forth by the publication of an announcement from Rome, Italy, made by John F. Stucks, Vice President of the American Chamber of Commerce and General Manager of the American Shoe Machinery Company, in Italy, when he said, "A bare-footed Europe is not improbable if the war continues. At the present time a pair of heavy mountain shoes will last a soldier about six weeks and the soles and heels of these shoes are even studded with hobnails to secure this service."

One of the officials of the B. F. Goodrich Company, in commenting further upon this article, said, "If this government should adopt rubber footwear or its Army and Navy, thereby securing not only an unlimited supply as compared with the leather shoe, longer service and greater comfort to the men would be assured at no greater cost than leather equipment."

GERARD PLACES HIGH ESTIMATE ON GERMANY.

CHICAGO, May 4.—"Germany can send out submarines as fast as she can train crews to man them," declared James W. Gerard, former American Ambassador to Germany, in an address to the Chicago Bar Association.

"The German munition factories are working at full blast. They lack nickel, used in the manufacture of big shells, but they are trying hard to make up this deficiency. Germany has more men in the field than ever before. She is at this time the strongest military power on earth. Our people do not grasp the magnitude of the war. The nation is not awake."

Gerard was the honor guest at a luncheon at the University Club. Representatives of Polish organizations called on him Thursday afternoon and thanked him for what he had done in behalf of Polish war sufferers.

—The W.C.T.U. will hold a meeting at the Presbyterian church at 2:00 o'clock this afternoon. This will be followed by a meeting at three o'clock for the purpose of organizing a Chapter of the American Red Cross Society. Mrs. John F. Davis, of Paris, will be the principal speaker. All the ladies are urged to be present.

—The flag raising, which was to have taken place on the Graded School grounds last Friday afternoon was postponed until this afternoon. Let everybody be present to show your patriotism to your country and your respect to "Old Glory." The flag was purchased by the students of the school, and will be raised with appropriate ceremonies.

—Quite a number from here attended the dedicatory exercises of the new Masonic Temple at Carlisle, Friday afternoon, and took in the special work in the evening. Daugherty Lodge has a handsome temple, one that any order may be proud of. A large audience was in attendance, the work being done by Past Grand Master S. K. Veatch, of Carlisle. In the afternoon exercises in the presentation of the flag by Mr. Ines Ross, every heart was stirred to patriotism and there was scarcely a dry eye. It was one of the most pleasant events of the kind in Masonic circles.

—Go-to-Sunday-School Day was a busy day here. Work began early, the church bells were ringing before 6 o'clock. The inmates of every home were out early making preparations for the busy morning hour. Committees had been out during the week soliciting for the largest attendance ever at Sunday School in all the churches in Millersburg at any one time. Their efforts were indeed rewarded. There was an enrollment of nearly one thousand in all the churches. Many pledges taken in all the churches to become regular members. The Sunday School outlook was never brighter in Millersburg. This work has been growing steadily for several years.

RAILWAY SURGEONS TO MEET IN LOUISVILLE.

The annual meeting of the Kentucky State Railways Surgeons' Association will be held at the Seelbach Hotel, in Louisville, Wednesday and Thursday, May 8 and 9. The meeting will be presided over by the President, Dr. J. B. Kinnaird, of Lancaster.

Dr. Charles G. Daugherty, of Paris, is on the program for an address on "Five Cases of Fracture of Base and Three Cases of Fracture of Skull," followed by discussion of the subject by Drs. R. C. McChord, L. L. Robinson and J. F. Fythian. Dr. Daugherty will participate in the discussion of an address by Dr. B. F. Zimmerman, of Louisville, on "Injuries to the Brain."

OUR SYMPATHY.

The deepest sympathy of the Kentucky editors goes out to Mr. Wm. Henry Jones, editor of The Glasgow Republican, whose printing office and entire newspaper plant was recently destroyed by fire. Mr. Jones had some insurance, but as the rate on printing machinery is so high, his policies will not cover the loss. He is a man not very easily discouraged, however, and we confidently expect to hear soon of the Republican rising triumphant from the ashes.

The Kaiser now hopes that God will be with the Germans. He used to advertise his positive appearance.

DEATHS.

JOHNSON.

—The body of J. W. Johnson, who died in Lexington, Saturday, was taken to his old home at North Middletown, Sunday, for burial in the North Middletown Cemetery. Mr. Johnson was a well-known young farmer of that vicinity, and had been ill only a short time in Lexington.

EARLS.

—Mrs. Lucy Petree, of this city, received information of the death of her brother, Mr. Benjamin F. Earls, aged eighty-two. Mr. Earls, who has been an invalid for some time, died at his home in Salt Lake City, Utah, on the first of May. The body was taken to Savannah, Mo., the former home of the family, for interment.

MATTINGLY.

—Mr. Robert T. Mattingly, aged sixty-nine, a prominent miller of Cornishville, died Saturday afternoon in the Elmwood Sanitarium, near Lexington, after an illness of several weeks. Mr. Mattingly was brought to St. Joseph's Hospital some weeks ago and later removed to the Elmwood Sanitarium for special treatment.

Mr. Mattingly was the father of Mr. Robert Mattingly, formerly of Paris, where he was stationed for many years as a baggage-master on the Lexington Maysville run on the Louisville & Nashville, and now residing in Covington. Besides his son, Mr. Mattingly is survived by his widow, Mrs. Mattie B. Mattingly, and five children, Wm. T. and B. O. Mattingly, of Arizona; Mrs. Beatrice Greer, of Memphis, Tenn.; Mrs. Mattie Gray, of Cornishville, and Miss Mayme Mattingly, of Cornishville.

The body was removed to the home of his sister, Mrs. Louis Steele. The funeral services were held at St. Peter's Catholic Church, in Lexington, yesterday morning at nine o'clock. The burial followed in the Catholic Cemetery.

THINGS TO WORRY ABOUT.

Patriotic mass-meetings for men and women are all right in a way, but how many pleasure-loving men and women of Paris and Bourbon county could be found who would gladly and willingly give up their autos without comment in case the machines should be requisitioned for Governmental use?

"Aye, there's the rub!"

Lord Cundiffe, Director of the Bank of England, and members of the Entente Commission, now in America could not find time to visit Lexington. Too bad, too bad!

CYNTHIANA ORGANIZES RED CROSS CHAPTER.

A permanent organization of a Chapter of the American Red Cross Society was effected at Cynthiana, Friday afternoon, at a meeting held in the Harrison county court house. About forty ladies signed for membership.

The following officers were elected at the meeting: President, Mrs. L. S. Givens; vice-president, Mrs. Orle Lebus; secretary, Mrs. Daisy J. Van Deren; treasurer, Mrs. W. L. Northcutt.

At a former meeting it was decided that the Chapter would take a course in first-aid-to-the-injured, under competent instructors. Mrs. Samuel Bennett, of Lexington, was to have been present and give valuable information as to what a Chapter could do to relieve distress in time of war, but she was unavoidably detained.

DANCE TO HONOR THE NEW RECRUITS.

And now comes along the "Patriotic Dance," as the latest society fad! Plans are being perfected for a monster benefit dance to be held in Lexington during the coming week in honor of the men of the Blue Grass who are soon to leave for the officers' training camp at Fort Benjamin Harrison, in Indiana, the entire proceeds to go to the American Red Cross Society.

A joint committee, composed of prominent society people of Lexington and nearby towns, met at the Phoenix Hotel, in Lexington, last night to complete plans and perfect arrangements. Miss Carolyn Roseberry, of Paris, represented Paris and Bourbon county on the committee.

THE WEATHER.

The weather forecast for the week beginning Sunday, May 6, as sent out from the Weather Bureau at Washington, does not hold much encouragement for gardeners and farmers in the way of fair and warmer weather. The report says:

For Ohio and Tennessee: Cool greater part of week. Local rains Monday or Tuesday, otherwise generally fair.

The cool spell which set in last week lapped over into this week, Saturday and Sunday being gloomy days, with dull leaden skies, giving every promise of snow or rain. Gardens and crops are in need of sunshine to complete the work started by the warm rains of some days ago. The weather man needs to be tormented, or galvanized into throwing in the towel.

VISITING NURSE'S REPORT.

4 children sent to Kentucky Receiving Home, Louisville.

1 child provided with brace through the kindness of a "big brother."

1 tubercular patient provided with sleeping porch.

1 patient supplied with \$6 worth of bandages.

4 homes in county fumigated.

7 homes in town reported for fumigation.

250 children (40 from county) given substantial gifts and made happy by Community Christmas celebration.

46 baskets sent out by pupils of colored school to their own poor, sick and aged.

From 20 to 50 children getting their lunch each day at Nurse's office by the "Penny Lunch," which was started January 19, 1917.

The officers of the Health and Welfare League join me in expressing grateful appreciation to our physicians for their willing service; to our city and county officials for their hearty cooperation; to our business men, lodges and churches for their generous donations; to the Men's Bible Class of the Christian Church for its great assistance in supplying coal to the needy during the winter; to the organizations which have so greatly given their time for sewing and the making of needed articles; and to the friend whose generosity has made possible the "Children's Christmas" and the "Penny Lunch."

Respectfully submitted,
HARRIET P. MINAKER.

GAME WARDENS WILL NOT BE INTERFERED WITH.

Some days ago THE NEWS published an account of the semi-humorous experiences of Game Warden Bush Bishop and an assistant with the soldiers at the Townsend bridge, on the Louisville & Nashville, below Paris. Mr. Bishop affirmed the particulars, with the exception that his companion in distress was Mr. Owen Gibson, of the local postoffice force. Instead of Mr. Squires.

Mr. Bishop, who is the Game Warden for the State-at-large, showed THE NEWS man Saturday a copy of a letter which had been sent to Mr. J. Quincy Ward, Executive Agent of the State Game and Fish Commission at Frankfort, who in turn transmitted copies to all the game wardens. The letter reads as follows:

"Headquarters of the Eastern Department United States Army, Governor's Island, New York, May 2, 1917.

"Game and Fish Commission, Frankfort, Ky.

"Gentlemen:

"The Department Commander directs me to acknowledge receipt of your letter of April 24, and to say that the Commanding Officers of the First, Second and Third Regiments of Kentucky Infantry have been directed to comply with your request not to interfere with the Game Wardens in patrolling the streams of the State and to prohibit the shooting of fish by members of their organizations on guard duty."

Warden Bishop returned Saturday from Irvine, where he had been to attend the trial of three men who had been caught in the act of gigging fish in Drowning Creek, in Estill county.

The arrests were made by Deputy Game Warden R. M. Tharp, of Estill county. The men arrested were Eugene Miller, Wesley McKinley and Wade Metcalfe. They were fined \$15 and costs each by Judge David Newton.

Remorse is a good deal like a wooden leg—it helps a man on his way, but he can see where he'd be happier without it.

BIRTHS.

—To the wife of Mr. Claude Crouch, near Little Rock, this county, a daughter.

—To the wife of Mr. Forrest Buchanan, near Clintonville, nee Miss Jennie Miller, a daughter—first born.

—In Covington, to the wife of Mr. Greene Moore, formerly Miss Mona Ross, of Paris, a son. Mother and son doing nicely, while Greene feels as if he owns the Louisville & Nashville.

RELIGIOUS.

—Rev. Dr. B. A. Dawes, pastor of the First Baptist church at Georgetown, resigned his pastorate Sunday, to take effect July 31, the expiration of his ten years' service. Rev. Dawes plans to retire to his farm in Garrard county, and take a rest. He is the father of Mr. C. C. Dawes, recently Secretary of the Bourbon County Y. M. C. A., and now a member of the Paris Public School faculty.

—At the Christian church Sunday, Rev. W. E. Ellis celebrated the fifth anniversary of his pastorate. Rev. Ellis preached a most excellent sermon on the subject of "The Joys of The Christian Ministry." At the evening service the choir, under the direction of Mr. A. L. Boatright, rendered a special musical program of decided excellence.

MATRIMONIAL.

—It is rumored that the engagement of a well-known and popular young farmer of this county and an equally well-known and popular young Paris girl will soon be announced. THE NEWS has endeavored to verify the rumor, with the usual result. Both young persons make the usual fervid denial, while at the same time making active preparations for the important event, which Madam Rumor says will be a society event of the coming summer.

PARENTS-TEACHERS MEET

A called meeting of the Parent Teachers Association of this city was held at the Paris High School yesterday afternoon at 3:15 o'clock, at which business of importance was transacted. Subjects of especial interest to the parents and teachers were discussed by the members.
